
BranchServ enjoyed a very successful 2012, culminating in the fourth quarter acquisition of CheckView/ Checkpoint; by all measures a great move on the part of this corporation. We have benefited from an infusion of new products, new customers and most importantly, excellent new people.

The company now employs several hundred people and operates 5 offices to serve a significant client base on the East Coast (from Maine to Miami), extending West to Texas and beyond. BranchServ has invested in maximizing proficiency within its service organization by bringing on great numbers of service techs with both expertise and experience, and providing them with the tools, inventory and training necessary to keep pace with ever changing technology. And in the far reaches of the United States, we have created alliances with reliable subcontractors that supplement in-house services. It is this level of commitment to our human resources that allows us to make good on our promise to serve the customer better than anyone else in the industry.

Our metrics surpass all. Learn more about our exemplary service programs at www.branchserv.com/service/index.php.
