SCHOOL OF MEDICINE

INDIANA UNIVERSITY

Chair, Department of Pharmacology and Toxicology

Indiana University School of Medicine seeks an outstanding scientist with the vision, scientific standing, and leadership qualities to lead the Department of Pharmacology and Toxicology. The Chair is not just the department leader but also an important figure across the academic medical center and will be expected to build upon existing institutional strengths to lead the department to the next level of excellence. The department has a strong and diverse research program, a successful graduate program, and actively participates in graduate and medical education. Candidates must have a Ph.D., M.D., or equivalent; an active and competitive, internationally recognized research program; and demonstrated commitment to teaching. For more information about the department, visit: http://pharmtox.iusm.iu.edu.

Salary commensurate with qualifications. Interested candidates should create one PDF file containing the following: (1) a letter of interest, (2) curriculum vitae and (3) a list of six references. Send the PDF file by email to search and screen committee chair Ken Cornetta, M.D. at iusmhire@iu.edu using "Chair, Department of Pharmacology and Toxicology" as the subject of the message. The search and screen committee will begin reviewing applications as they are received and applications will be considered until an appointment is made.

Indiana University is an EEO/AA employer. We are committed to building a culturally diverse intellectual community and strongly encourage applications from women, minorities, and persons with disabilities.
