University of Connecticut Health Center

KNOW BETTER CARE

Clinical Director, Carole and Ray Neag Comprehensive Cancer Center and Chief, Division of Hematology and Medical Oncology

The University of Connecticut Health Center (UCHC) invites applications for the **Chief, Division of Hematology/Oncology who will also serve as Clinical Director, Carole and Ray Neag Comprehensive Cancer Center.**

UCHC is entering the most exciting phase of its 50 year history as the principal focus of the State of Connecticut's extraordinary ***Bioscience Connecticut*** initiative, led by Governor Dannel P. Malloy. This plan commits the state to $864M investments in new clinical and academic facilities, as well as recruitment of basic and clinical research faculty.

The Clinical Director and Chief of Heme/Onc is expected to build on the momentum of *Bioscience Connecticut* and leverage new opportunities for personalized medicine, translational research and genomic medicine in general. The prospect of accomplishing these goals is enhanced by the presence of The Jackson Laboratory for Genomic Medicine, a 250,000 sq ft facility located on the UCHC campus. The Chief will have responsibility for the strategic direction of the Cancer Center's clinical programs and the opportunity to build a Division of Hematology/Oncology for the future.

Academic appointment will be at the rank of Associate or full Professor, commensurate with experience and accomplishment. Compensation includes a competitive salary and benefits package. Applicants must be board certified/eligible in Hematology and/or Oncology and/or an international equivalent and should be eligible for medical licensure in the State of Connecticut.

Korn/Ferry International is assisting UCHC with this important search. Forward applications or nominations to:
