In July, CTH+A President **C.T. Hsu, FAIA, LEED AP,** accompanied a Florida higher education delegation to Taiwan for the second annual Florida-Taiwan Higher Education Conference. The highlight of the trip was the delegation's private meeting with Taiwan President Ma Ying-jeou and Education Minister Wu Ching-ji at the Presidential Office in Taipei.

"I'm very proud to have known President Ma since our junior high school days," said C.T. "He

has shown remarkable leadership in his support of international education, and I believe he will continue to successfully lead Taiwan into a bright future."

The focus of the Taiwan-Florida Higher Education Conference is to enhance academic research cooperation, foster collaboration between higher education in Florida and Taiwan, and provide a forum for delegates to share experiences related to student exchange, dual degrees, joint degrees, and research collaboration.

Tim McNicholas, AIA, LEED AP, is serving on the University of Central Florida's School of Architecture Advisory Committee and also the University of Florida City Lab advisory council. The committee was established with educational leaders from UCF, UF and Valencia Community College to provide an articulated pathway for students enrolled in UCF's new four year degree program located on the VCC West Campus.
