VENTURA BIOCENTER

Ventura County's Life Sciences Incubator!

Accelerate your product ideas!

Ready to prove a concept, produce a prototype, or invent a new drug but need the lowest-cost space and fastest time-line? Why build when you can lease a lab faster for less? The Ventura BioCenter has Ventura County's only public-access wet lab space for short– or medium-term lease, featuring:

- Fully-functional wet labs with power, A/C, IT, telephony
- Access to common space and equipment
  - Fume hoods, centrifuges, instrumentation
  - Conference rooms, break room, networking
- Both common and private spaces are available
- Fast, easy access to highway 101
- Access to on-site analytical and synthetic capabilities
- Share space, resources, and equipment to lower costs
- Access to collaborators, vendors, and investors
