

Business Opportunity Fund

Together We Can Preserve and Enhance Our Business Climate

Created in 2010, the *Business Opportunity Fund* is a 527 political organization (named for its section of the federal Internal Revenue Code) managed by Colorado Concern for the purpose of supporting statewide legislative candidates who understand and embrace business friendly policies and practices. No limits exist on the size of financial contributions 527s like the *Business Opportunity Fund* may accept, and no restrictions are placed on who may contribute. The entity is registered with the Internal Revenue Service (IRS), is transparent with regard to its donors, and reports contributions and expenditures to the Colorado Secretary of State.

Yes! Count me as a supporter of the *Business Opportunity Fund*. I want to play a role in supporting state legislative candidates who embrace and understand the role the business community plays in Colorado!
