

Project H.O.P.E. Help our Playground Evolve

Project H.O.P.E. at St. Joseph School of All Saints Parish 56 Oak Terrace – Haverhill, Ma - 01832

After the loss of our beloved Fr. Nason, we wanted to honor his memory and finish something that had meant a lot to him and a lot to us here at St. Joseph School. Improving the appearance of our School for the children and the community is what the P.T.O. wants to do. That is why the P.T.O. has created the program called H.O.P.E. – Help Our Playground Evolve. Many committees have been formed to assist with this project.

The Public Relations Committee is doing a GREAT job promoting St. Joseph School to the public as well as enhancing the awareness of what our school offers. The children we service, the extra curricula and sports programs that are included in a day, and the community outreach our students are involved in. All of these help us grow as the “St. Joseph School Family”.

The Playground Committee is working on getting pricing and estimates for this project. Our plan is to re-grade and re-level the entire lower school yard, install a play-safe surface and climbing structure for the younger children (K-12) as well as re-pave the asphalt and install functioning basketball hoops, hopscotch court and four squares as well as a new pvc-coated chain link fence. We all need to work together to make this happen. Fr. Nason had a dream. and we want to make that dream come true.

Please take time to visit our school website to see the progress of H.O.P.E. (www.sjshav.com). We are working hard to keep you informed and to provide you with the information and opportunities to make this P.T.O. Project a success! Thank you to all who get involved.

Charlene Enos – P.T.O. President
The H.O.P.E. Committee
Carol Simone – Principal, St. Joseph School
