

Connecting Lives, Sharing Cultures

Imagine if you could add another member to your family from France? A person who has lived in France. A person who could share their French culture. A person who speaks the French language. A person who sees the world in a different way than you. A person who wants to be your new brother or sister. You can by becoming a AFS Volunteer Host Family!

AFS USA has three students from France coming to our community in August. Meet them:

Camille is a very cheerful, independent and social girl who loves animals. In her free time Camille plays board games, practices Judo, acrobatics and gymnastics, skis, hikes and goes to the movies. Her favorite subjects in school are French, History and Math. Her family has traveled quite a bit and this has ignited Camille's love of travel and discovering new places. She wants to come to the United States to adapt to a new lifestyle, share French culture including, music, recipes, stories and games with her host family.

Remi is a very active young man. He loves playing sports including tennis, soccer, running, baseball and skateboarding. He also enjoys traveling, listening to music, video games, dancing and spending time with friends. He is looking forward to studying abroad for a year to learn even more about American culture and he also wants to prepare some French cuisine for his host family. In the future Remi would like to study International Business.

For a long time, it has been Felix's great dream to come and live abroad in the United States of America. He is really interested in American culture and wants to experience it to the fullest. Felix's interests include cooking, playing video games, chatting on the Skype program, and watching movies. He loves being outdoors, which is why his favorite season is summer. During this season, he likes to spend as much time as he can outside and in his family's pool. Felix is described as easygoing and friendly.
