

Hello, I'm João and I am 17. I study and live in Lisbon with my parents , my sister and my dog. At home we Get along very well. We have dinner every day all together and we talk about our day, it's like family time.

Ever since I remember I've loved sports, especially soccer. With the passing of the time I have become a big fan of a Portuguese soccer team "Sport Lisboa e Benfica". Besides soccer , I like to be with my family , to be with my friends, listen music , go to the beach, ride my bike and walk my dog.

I consider myself sociable, a good friend athletic, polite and persistent.

On the contrary sometimes I'm a bit lazy.

When I'm with my family, we usually take the dog to the beach or we going to see a movie on the cinema. Sometimes we went to countryside to our farm and we take care of the animals , we help people to treat the vineyard and I walk though the hills with my dog.

With my friend we go to the parks in Lisbon, we go to the malls and we arrange soccer or rugby matches. In the summer usually when we don't have to study after classes we take the train and we go to the beach witch I particularly enjoy. Luckily I never had problems making friend and I have some in many different places in Portugal. One of my best friend, Pedro, its from a little town Mora and we are friends since I was 4 years old. His father worked in our farms and some times he took Pedro to help. He is 3 years older than me and we learn how to ride bikes , play soccer and a lot of other stuff together. When I started to play soccer in a league, I had to stop visited him, because I had games every Sunday, but of course when I'm on vacations I go there whenever I can.

After school and when I finish my homework I always walk the dog for one hour and a half. Normally that helps me forget about school and my problems. I consider that hour my time to think about everything. That is very important for me and for my dog too because he is my responsibility. He is 6 months old and his name is Elky and I'm sure that never in my life I'm going to have such a really good friend. He will be there for everything and I will try to do the same for him.

I'm studying economics and I want to go to college and follow management. My objective in life is to be independent, happy and successful to one day have my own family.

I hope I get along very well and to hear from you soon !!

João
