## May 5 Day Tank Sale

We found great values on Faber steel tanks at the Northwest Dive and Travel Expo recently.

Tanks are on sale April 29 to May 3. All orders must be placed and paid in full by May 3 at 7 PM.

Faber steel cylinders come in low, mid and high pressure ratings and range in volume from 12 cubic feet to 149 cubic feet. Sprayed with zinc galvanizing then coated with epoxy and clear coat, Faber cylinders have been my favorite for nearly 20 years. The sale is on tanks 50 cubic feet or larger.

Tanks come Nitrox clean with convertible valve and boot.
