How summer scheduling works:

- First, you choose your package.
- Then, each month, your teacher will contact you about scheduling lessons for the upcoming month (unless you want to schedule in advance).
- Once lessons are scheduled, you may request to make changes to the schedule during the month, but only if you give your teacher at least a one-week advance notice of your request.
- Rescheduling is subject to availability in your teacher's schedule. Last-minute cancellations or no-shows cannot be rescheduled or made up. (Exception: One lesson per summer may be made up in case of illness or emergency based on time available.)
- We regret that credit cannot be given for missed or unscheduled lessons.
- You are always welcome to ADD more lessons, if you'd like. The teacher will notify the office, and we'll adjust the billing accordingly.
