

Need a year-end tax deduction?
Let the Foundation help!

Charitable contributions are an important part of any corporate/individual tax plan and the IPPS-ER Foundation is happy to help. Contributions of cash and appreciated securities (we know there are *some* out there!) can help reduce your tax burden while helping to build a bright future for our beloved IPPS. Direct distributions from IRAs and other tax-deferred accounts can also work to the donor's advantage. And of course, if you are one of those responsible individuals who annually reviews your estate plan, we hope you'll consider adding the Foundation to your plan. Call your tax professional for advice and contact the Foundation for assistance.

The IPPS Eastern Region Foundation was established to fund important scientific research projects and scholarships within our industry. We are in the process of building an endowment that will allow us to begin allocating those funds. While the earnings on this permanent endowment will provide the funding for our objectives, the principle will be held in reserve, thus ensuring continuance of future projects, which will benefit our members in years to come.

Contributions in any amount are welcomed. Mail your check (in US funds) made payable to "IPPS Eastern Region Foundation" to:

IPPS Eastern Region Foundation
1700 North Parish Drive
Southold, NY 11971
USA
