HFMA South Texas Chapter Members,

I hope this newsletter finds you all well and enjoying your summer. In this industry with all the changing news and events, there is NEVER dull moment. My biggest challenge is trying to stay on top of the ever changing news.

That is where being a part of HFMA comes in and helps me not only stay on top of the ever changing industry, but also stay educated throughout the year. I really love the flexible schedules and option of attending all the educational seminars. Online or in person, you are guaranteed to get the education you need.

On that note, we have lots coming up in the end of the year. Please be sure to mark your calendars for all the upcoming educational events noted in this newsletter.

Another reminder, as a South Texas Chapter member, you can submit industry specific articles or topics you would like discussed for our next newsletter. The deadline is October 25, 2013 and can be sent to jforce@hcf-sinc.com

Thank you,

Jami Force
