

Model 610 Hose Retriever, Bases, & Hosebun

NEW PRODUCT ANNOUNCEMENT

The **610 Hose Retriever** suspends the fueling hose above the dispenser eliminating kinks and tangles while keeping the hose up off the drive. The 360 degree smooth rotating retriever head assists the operator in positioning the hose to the fueling point. The hose retriever reduces safety hazards at the fueling point and eliminates hose wear.

A heavy duty steel base is available to simplify retrofit installations saving time and money. Two 10-pound counterweights connect via stainless steel cable making for low maintenance and trouble-free counter movement. Extra weights are available for larger diameter hoses.

Construction Details for Hose Retriever

Cast iron head (E-coated black)

Stainless steel cable and connectors

Aluminum pulley

Stainless steel ball bearing swivel

Installs on 2" Schedule 80 pipe (installer supplied)

Fig. 610

The **610 Standard Base** makes the anchoring process a 610 hose retriever easier by eliminating the need to break concrete. The **610 Hinged Base** allows the hose retriever to be tilted 90° to grade level for installation and service.

Features of Hinged Base

Reduces installation time

Inspection and service are easier and safer from grade level

Construction Details

Hinged Base

Steel, powder coated black

Set screws are stainless steel

Hinge is stainless steel

Standard Base

Steel, powder coated black
