

# Membership Green Benefits

## ***Enews Inserts***

We are always looking for new ways to serve our members and be kind to the earth

The format is new with a greater focus on our members and their businesses, still providing you with all of the networking opportunities.

***You still have the opportunities to place your inserts through enews.*** Simply provide us with a pdf formatted file of your insert. Our members will be able to directly download your insert for viewing.

This format will be friendlier to the environment and will save you money (no inserts to print and fold). The cost, will stay the same (\$75).

Please contact the Chamber office to find out more details:
