At Gateways I learn about Jewish holidays,  
make art projects, go to music, and eat snack.

Soon it will be summer vacation. During June, July, and August I will not go to Gateways on Sundays.

On some Sundays during summer vacation I might stay at home.

On other Sundays during summer vacation I might go out and do fun things with my family.

Many people feel excited about summer vacation. Summer vacation is usually a lot of fun. It's ok to feel excited about summer vacation.

Some people feel sad about summer vacation.  
Sometimes during vacation people miss their  
friends and teachers.

It is ok to feel sad about summer vacation. If I feel sad I can talk to my parents, listen to some music, or play a game. These things might help me feel better.

When summer vacation is over in September, I will start going to Gateways on Sundays again. It will be fun to come back to Gateways. That makes me feel happy!
