

A Special Friends Testimonial

United Way
of Laramie County

By: LaVerne Fuller

Special Friends and their outreach program have been in my two boys' lives (William and Derrick) for 3 ½ years. They just love all the activities that are offered. If it wasn't for the fun and activities that are offered every Wednesday, they would not have hardly anything that they do with other boys outside their circle of school friends.

I also would like to thank the whole staff for all the times they have helped my family in general. Every time I have had a situation that I was not able to do things for my boys, Special Friends was there with a way to help. And, Christmas is one holiday that they have always made a lot easier too. I know that they touch many lives and families in this fine community. I also want to say that Adam is like a big brother to my boys. They always look forward to spending time with Adam. He is a very big part of their being able to get out and just be the boys they are. I can never thank him enough and hope he never leaves the outreach program.

I also have completed the parenting program that is offered to all. I have learned a lot of things from this program and would say that anyone who takes this class will walk away a better parent.

Thank you Special Friends for making our lives more fulfilling.
