

Banneker Industries is a world class provider of Supply Chain Solutions. We are committed to understanding and exceeding the needs and expectations of all our customers by working together to drive business excellence.

VALUE ADDED WAREHOUSING

The days of the traditional "Warehouse" are long gone. We support our customers with a dynamic Inventory Management Center that incorporates cutting edge systems and technology to store and track product. Banneker implements processes that improve workflow, productivity and profits for our customers. We have the physical capacity to manage large volumes of product while maintaining product integrity through highly secured and controlled storage environments (i.e. electrostatic discharge safe, temperature controlled) as well product visibility throughout the supply chain.

PROCUREMENT

Banneker's procurement service gives our customers a one-stop shop for all their procurement needs – from general MRO to complex electronics and machined goods, we have the expertise and partnerships to manage it all.

INSPECTION

Banneker provides unique inspection capabilities that include Inbound Inspection (kind, count and condition), Counterfeit Part Inspection, Certificate of Conformance/Analysis Validation and other third-party inspections. Our competencies also include Source Inspections, Sample Inspection to Acceptable Quality Level (AQL) sampling plans and Mechanical Inspection/Test (destructive and non-destructive).

KITTING

Take advantage of our Advanced Kitting Services for a wide range of manufacturing, assembly, aftermarket and MRO requirements. We offer fully traceable kits from simple plastic bags to advanced kitting solutions for full module and build production for specific manufacturing, assembly, your subcontractors, aftermarket and MRO applications. Banneker's kits can contain everything in the bill of material and beyond, including hardware, electronics, raw/machined metals, sub-assemblies, documentation, engineering work cards, tooling/fixtures, etc. Kits can be comprised of Banneker sourced, customer owned or manufactured product or a mixture of the two and include flexible methods of delivery such as Kanban replenishment and consignment.

PACKAGING & FULFILLMENT

Banneker's order fulfillment services create customizable end-to-end solutions for our customer base. From the establishment of an E-commerce website all the way through final shipment and reverse logistics, we get your product to where it needs to go on-time and under budget.

DISTRIBUTION

Whether we utilize our own LTL vehicles, our own network of inter-modal providers or your vendors, our customers can rest assured that our unbiased and objective approach will result in product arriving on-time, non-damaged and under budget.

ONSITE SERVICES

Banneker has the unique capability of being able to support our customers onsite at their locations. Our experienced Team is capable of managing the receiving, shipping, inspection, mailroom, transportation and other unique operations. Banneker helps to deliver a team-based solution focused on reducing total costs while increasing performance and customer satisfaction.
