

Center for Competitive Change™

The Center for Competitive Change continues to be one of the top providers of Lean and Six Sigma training.

The Center for Competitive Change is proud to extend a personal invitation to attend two workshops with

Michael Hoseus

**Co-Author of the best selling book
*TOYOTA CULTURE: THE HEART AND SOUL
OF THE TOYOTA WAY***

New!

Advanced A3: A Decision-Making Problem Solving Tool September 20

This workshop will go “beyond” the basic “fill in the boxes” of an A-3 and dive deeper into “A-3, or Plan-Do-Check-Act (PDCA) Thinking”. PDCA thinking is the core process to lean in regards to continuous improvement and change management. This workshop is meant to go beyond introduction and lecture and into giving leaders practice and feedback using the A-3 process.

- Plan-Do-Check-Act process and thinking
- A-3 process and tool as a “story”
- A-3 as a dialogue and communication tool
- Hoshin Kanri and the “Strategy A-3”
- Project Management and the “Status A-3”
- Change Management and the “Proposal A-3”
- Presenting an A-3
- “Bashing” several A-3’s (from past participants and actual A-3’s from your organization)
- Coaching and giving feedback to an A-3
- Creating your new and improved A-3

Culture and Cultural Changes Through Leadership and Employee Development and Engagement October 10

Attend this seminar to learn the TOP TEN problems with attempts at Lean Transformation and what to do about them. During your time with Michael, you will learn and practice why “delegating Lean” doesn’t work, and may actually hurt your bottom line, how to establish a culture of trust and continuous improvement and understand why simply focusing on “cost cutting” during these challenging times is the wrong approach. Other key areas of the seminar will include:

- Hoshin Kanri—Learn a system that enables every single employee from top management down to share the vision and participate in its management
- Connect the company and/or organization strategies to daily activities to address current business needs ... staying focus and efficient
- Learn the different roles of leadership, management, supervisors, and workers
- Growing people into a continuous improvement machine and “no blame environment”
- Plan-Do-Check-Act (PDCA) in daily work and 3 stages of problem solving for all levels in the organization
- Review communications and work teams: daily huddles and the floor management development system

"Practical experience for every topic covered. Finally, not a sales pitch for future consulting."
~ Don Y. , Tosoh SMD, Inc.
