PALLET RACK STORAGE SYSTEMS

CANTILEVER STORAGE SYSTEMS

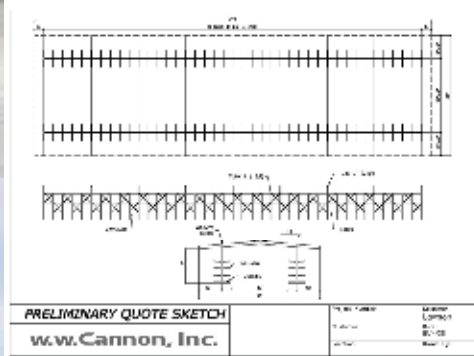

Cantilever Storage Systems are multi-level, high density storage racks designed and engineered for superior strength and stability. With appropriate storage capacities, these structural steel racks store lumber, pipes, rolls of carpet—anything that requires long, unobstructed space without interference from upright support columns.

Built with durability to deliver dependability, **Cantilever Storage Systems** are another reason why warehouse and home center markets look to WW Cannon to design custom displays and storage systems that will increase operational efficiency, available cube space and their bottom line.

RACK SUPPORTED BUILDINGS

Rack Supported Buildings are a cost-effective way to shelter your stock from weather damage year-round. Enhance the look and efficiency of your yard and lower your overhead costs with this highly versatile storage facility.

Your customers will appreciate the convenience of drive-thru loading and wide aisles provide easy access to lumber and building materials.

Get shoppers in and out quickly, increase volume, accessibility and optimize cube space in the low maintenance environment of a **W.W. Cannon Rack Supported Building.**

SPECIALTY STORE FIXTURES

When you are laying out your new store, you want it to be individualized and unique-not having the mass-produced look of your competition. At W.W. Cannon we treat your projects as top priority, not as part of a high production quota. We can customize each order for our clients. We take time to provide you with the custom fixtures you need.

Increase your storage capability and maximize merchandising opportunities.

Once you've decided on a concept for a new store or yard, it takes time and effort to make it a reality. At W. W. Cannon our people, products and turnkey services will give you the peace of mind you need to take your concept from Design, to Layout, Build and Installation.

We are committed to providing professional planning services for *home center* and *hardware store* interiors, power retailing formats, back rooms, multi-acreage lumber yards and warehouses.

Our experienced and talented team of installers will install your project cost-effectively, safely, and most of all, right the first time.

Our goal for your project is to maximize profits through effective, strategic planning that optimizes product mix and product turns.

Cost effective fixtures emphasize your product and your individual branding. Profit enhancing merchandising reduces cost, aids in establishing reorder points, and reduces shrinkage. Put the design professionals at W.W. Cannon on your design team.
