Pumpkins

Pumpkins aren't just for carving, they are tasty too! When selecting that festive gourd, choose clean, well-shaped pumpkins with no cracks in the rind. Also avoid pumpkins with soft spots or decay.

More than just a beautiful decoration, pumpkins are nutritious. They are fat free, sodium free, a good source of Vitamin C and high in Vitamin A.

Look for Colorado pumpkins at your local grocery store, farmers' market or at pumpkin patches across the state.

Each month the Colorado Department of Agriculture features a different commodity to highlight the variety and quality of products grown in the state.
