Artist Marcia Soderman

There have been two constants in the life of accomplished artist Marcia Soderman: her passion for art and her affinity for water. Her work is visually stunning but often complex in its meaning. As an artist in the *Women and Water Rights Project*, Ms. Soderman appreciates the profound significance and symbolism of water. *Bring an old shirt to throw on over your clothes for a painting exercise guided by Ms. Soderman at the end of the program.*

“Fun” Shui 101, Wellness in Living by Julie Ann Segal

The term *Feng Shui* literally translates as "wind-water" in English. Ms. Segal, an accomplished businesswoman, interior designer and certified Feng Shui practitioner applies many of its ancient principles to the designs she creates for her clients as well as to her own environment. Her work has been showcased on HGTV's show "Room for Change." *"I believe that each person has the capacity to create a living or working environment that reflects their spirit and enhances health and well-being."*

**Music by Blues and Jazz Pianist
Chuck Solberg**

Nationally recognized Jazz pianist Chuck Solberg has toured here and abroad with Luther Allison and has shared billing with legends such as Miles Davis, BB King, The Shirelles, Muddy Waters, and Chuck Berry, among others. He has also won the public admiration of Bob Dylan.
