

### *Belize Mission 2013*

*The proposed goal of the 2013 mission is two fold, build a sustainable library for the San Narcisso Roman Catholic School and reconstruct an existing building as a kitchenette for the kindergarten classes. The library portion of the mission will be largely a US mission group's responsibility; the kitchenette will be constructed by the Belizean people funded by our mission efforts.*

#### *Library Building*

*\$10,000.00 USD*

*The Library building will be a prefabricated 24 X 24 wood structure built by the Mennonite Community in Shipyard, Belize and carried by truck to the site. Cost estimate include moving the structure. Additional materials for the library will be concrete pylons (that will need to exist before the building is moved into place) and slab material for shelving that will be installed during the 2013 mission. The build will come painted on the exterior.*

#### *Additional Materials*

*\$2500.00 USD*

#### *Kitchenette*

*1) Door \$220.00 BD \$110.00 USD*

*2) Roof \$1295.15 BD \$647.58 USD*

*Costs include hurricane proofing for eaves screws and caps etc.*

*3) Plumbing Material Estimate from Lano*

*\$3019.94 BD \$1509.97 USD*

*This estimate includes pipe work for water and sewage, sink cabinet and sink, faucet and necessary fixtures for sink. Electrical wiring, lighting fixtures, switches, boxes, receptacles to provide lighting and electrical connections for refrigerator. Hard board materials for ceiling and paint for interior of the structure.*

*4) Refrigerator \$1750.00 BD \$875.00 USD*

*\$15,642.55 USD*
