Agile Working Event

A second Agile Working workshop will be held on 2 October at the Vodafone Headquarters in Newbury and will be attended by Sir David Nicholson, Bill McCarthy and the Vodafone UK's Executive team.

All agile working champions are invited to take advantage of this opportunity to share best practice and hear from Vodafone UK's CEO. We will share and learn from each other, and consider what we need to do to ensure sustainability - applying our learning from Vodafone's experiences.

We will also be reviewing our progress against the agreed actions from the first workshop in June and against improvements already underway following feedback from the first staff barometer.

Attendance is free but numbers are limited so you need to apply early. More details will be available on the intranet from early September.

Apply to england.odhelpdesk@nhs.net with your full name and e-mail address.

NB. 'Realising the Value of Flexible Working' is a helpful research study released in July 2013 by Vodafone on the adoption, value and future of flexible working. You can download this from the Agile Working intranet page.
