

## Brain disorders are the newest frontier in medical science.

At this conference, jointly sponsored by The George Washington University and the Physicians Committee for Responsible Medicine, some of the world's foremost experts share the latest insights on the role of nutrients in Alzheimer's disease, multiple sclerosis, Parkinson's disease, and other conditions.

**What:** International Conference on Nutrition and the Brain: The Role of Foods and Lifestyle in Alzheimer's Disease and Other Neurological Disorders

**When:** Friday, July 19 and Saturday, July 20, 2013

**Where:** Grand Hyatt Washington, Washington, D.C.

**Cost:**

*Early Bird Registration is \$299 by April 15*

Standard Registration after April 15 is \$359

This program will offer:

- Continuing education credits
- Expert presenters in the field of brain health
- Networking opportunities with attendees

Live out of town? You'll want to make a special trip for this one of a kind program. Discounted room rates are available at the Grand Hyatt Washington, conveniently located near tourist attractions and museums.
