

ASB Unanswered Questions  
By: Taylor Gonzales

Associated student body, also known as ASB is a group of students that take the time out of their day to make our school a more joyful place to be. They all have leadership abilities, and are also very trustworthy students.

Each and every one of them has a certain job to be working on. There are committees for the activities that go on at our school.

MCMS president Deborah Ong stated,

“ASB isn’t just fun and games. We all work very hard, and there are 86 students in the class. Mr. White expects a little more out of me than the others because I am the president. We don’t receive any homework. We just have to write a lot of essays.”

Many ASB students said it’s their favorite class, and they look forward to going to it.

The dance that was in April was Hawaiian themed. It’s the first year ever that ASB is combining third and fourth quarter dances. This means that they get double the money they usually would get to spend on the dance. There is going to be an In n Out truck, a game truck, Italian ice, and more. ASB gets all their money for the year from the magazine drive during quarter 2.

If it wasn’t for ASB, we wouldn’t have such a great fun school as we do now.
