

## What's new in the school library

By: Kaitlyn Nehira

The school library is a great place to go and check out books. Mrs. Paniz is currently the librarian for MCMS school library. She loves helping students find books that they really love to read; it gives her a happy feeling inside. However, in order for a student to check out a book from the school library, they must bring their ID card and rent the book.

Mrs. Paniz's job is more than just helping kids find books.

She said, "When I work in the library, I help students access information, encourage students, and look for more interesting books for students. I also go to classes for fans of books, and I help out in the Yellow Star program."

Mrs. Paniz isn't the only one in Mede Creek who has a major love for books. Mrs. Dusek is a big fan of books and when she reads them she gets very into it. Mrs. Dusek is now a humanities teacher here at MCMS. She told me that one of her favorite book series is the "Hunger Game" by Suzanne Collins.

Mrs. Dusek stated, "Reading helps me to become a better language arts teacher and when I read books I get very emotionally involved." Mrs. Dusek loves to come to the school library. She stated that she gets a book from the school library 2-3 times a month. Mrs. Dusek checks out books by going to the school library and asking for a book because she doesn't have an ID card.

Teachers aren't the only ones who love reading books; students at MCMS love to read as well. Students and sisters, Faith and Ashlyn Guedetti, enjoy reading books. Some

of their favorite books include “Where the Lily’s Bloom’ and “Wide Windows.” They go to the library whenever a new quarter starts.

Faith said, “ What I love most is that you can borrow books for free.”

Ashlyn said, “ I love the library because you can get a book anytime you feel like it.

To sum up, the school library is a great place to go and check out a book that will draw you in.
