

Transportation Planner

Milone & MacBroom, Inc. is a growing multidisciplinary engineering, landscape architecture, planning and environmental science consulting firm. Our corporate office is located in Cheshire, Connecticut with satellite office locations in Maine; South Carolina; Massachusetts; and Vermont.

We have an immediate opening for a Transportation Planner in our corporate office in Cheshire, CT.

The qualified candidate will be responsible for analysis and documentation of all forms of traffic studies (impact, bike pedestrian, circulation and corridor studies) and parking studies, proposal writing, and attendance at meetings under the supervision of senior staff.

The candidate should have a minimum of five years of experience in traffic impact and corridor studies, and bicycle and pedestrian facilities planning and design. The candidate should possess a Professional Engineering (P.E.) license or Professional Transportation Planner (PTP) certification or the ability to obtain within one year. Additional preferred skills include excellent verbal and written communicative skills, working knowledge of ArcGIS and traffic analysis software such as SYNCHRO.

The position has great potential for growth. Working with an experienced team of engineers and planners, the successful candidate will be involved in expanding the services offered by Milone & MacBroom, Inc. and expanding the geographic service area which we serve.
