

Norton Yachts is thrilled to announce a new partnership with local premier destination resort, The Tides Inn. Norton's sailing packages are offered to resort guests for a "first class" Chesapeake Bay sailing experience through The Tides Inn. With five different sized yachts in Norton's Sailboat Charter fleet, guests can choose from a list of itineraries or create their own. Guests have the option of choosing learning to sail packages through Norton's Sailing School and can obtain American Sailing Association Certification while staying at the famed resort in Irvington, VA. Private "Intro to Sailing" packages are offered for guests who would like to experience being at the helm for the very first time and experience a few hours on the historic Rappahannock River. The day will be guided by a Norton Yachts sailing instructor captain while guests indulge in a Tides Inn picnic basket. Experienced sailors are also able to charter one of Norton's many beautiful yachts in Norton's charter fleet during their stay, docking at the Tides Inn marina or other destinations of their choosing each evening. "We're delighted to commence an association with such a professional organization as Norton Yachts," said Gordon Slatford, The Tides Inn General Manager. "To have the ability to provide our guests with access to an array of specialized services and the latest and Norton's modern yachts places us in the lead of most resorts on the East Coast." www.nortonyachts.com
