Strength Deployment Inventory®

The SDI® is a proven, memorable tool for improving individual and team effectiveness. It is a learning model for effectively and accurately understanding the motives behind behaviour. When people recognize the unique motivation of themselves and others, they greatly enhance their ability to communicate more effectively and handle conflict more productively.

For individuals this will result in more effective relationships and communication with your business colleagues or employees and enhanced personal relationships with your life partner, friends and family. For teams and staff groups, this tool and its accompanying workshop can begin the awareness and understanding that will shift teams to be more fully-functional, aid in developing open communication and understanding and create more productive and happier relationships.

Strength Deployment Inventory® (SDI®) Team Workshops

The Strength Deployment Inventory workshops for teams are highly interactive and based on the Strength Deployment Inventory® (SDI®) assessment. Beginning with senior management, and other identified key personnel, the Strengths Deployment Inventory® (SDI®) will be introduced to participants by completing an on-line self-assessment revealing his or her own profile. The individual SDI® results are then used to form the team SDI® profile. This information will be used in the interactive SDI® Workshop to help build a stronger dynamic team, open up coaching opportunities with peers and direct reports, address areas of conflict and provide insight
