SUPPLIERS' EDGE SPRING, 2012

High Efficiency, Long-lasting Baghouse Filters

Although there are only three basic types of baghouses - shaker, pulse, and reverse air - there are hundreds of different styles of bags. At American Fabric Filter Company we understand that a baghouse system works only as well as its bags perform. Filters require regular cleaning and periodic replacement to maintain peak performance and baghouses depend on an exact fit of the replacement filters to function properly. AFF manufactures all styles of replacement baghouse filters from a selection of fabrics suited to address specific applications. Our scrim supported felts offer added strength and durability so our filters can withstand abrasive dust and frequent cleaning to extend the life of the bag, while providing fine particle separation and excellent dust release properties. At AFF we can cross-reference most filters or duplicate your sample to provide an exact match.

Thomas Tuck Named Casadei Product & Distribution Development Manager

Casadei – Busellato announces Thomas W. Tuck III as Product and Distribution Development Manager for Casadei

North America. Casadei is a leading Italian manufacturer of jointers, planers, edgebanders, sliding table saws, wide belt sanders, moulders and panel saws. In his role, Tuck is responsible for managing all sales and marketing activity for Canada, USA, and Mexico.

Tuck also volunteers his time as a Board of Directors Member for WoodLINKS USA and previously served as Regional Sales Manager for SCM Group North America. For more information, contact Thomas Tuck, Casadei Distribution Development Manager at 770-622-6583.

Flakeboard in a Nutshell

For over 50 years Flakeboard has provided the building industry with more variations of composite wood panels and finish options than we can count!

Flakeboard's products have been "green" for that long too, their panels are produced using 100% recycled and/or recovered wood. Flakeboard panels are CARB Compliant, FSC Certified, LEED point qualifying and EPP (*soon to be ECC*) Certified.

Flakeboard has two facilities in Canada and five in the US, with finishing capabilities that are not limited to thermally fused melamine; décor paper, paint, direct print, cut-to-size and pegboard are value-add options that are also available!

Flakeboard is pleased to serve distributor, OEM, commercial, residential, design and consumer markets, and look forward to hearing from you!

Contact us, or visit flakeboard.com for more!

our latest texture

The greatest compliment to Flakeboard's linear woodgrain collection...MEDINA

The deep embossed texture of our new Medina plate adds a look of distinction, a European touch and unique flare to our straight-grained designs and exotics.

For wrapped applications, this finish works well with Belluno from Olon's NEXGEN™ Laminate Collection.

Access the Medina Program brochure for full details.

HÄFELE INTRODUCES LAMINATED BRUSHED ALUMINUM PULLS

Häfele America Co. is pleased to introduce laminated brushed aluminum pulls. Made of aluminum and high pressure laminate, these unique contemporary pulls work well with modern or European styled kitchens and furniture designs. The brushed aluminum and black finish blends well with metal accents and appliances found in today's kitchens. Multiple lengths allow for use in a broad range of drawer and door sizes. European made, these products are for kitchens demanding quality, looks and performance. To learn more about the laminated brushed aluminum pulls or other decorative hardware, please visit www.hafele.com/us.

Designs to Reality: New Product Showcase featuring Sugatsune

We will be having showcases presenting our products nationally at our distributors. We will be highlighting our NEW generation lid stay, SOFT-CLOSE sliding door, FIRST swing down lid stay, and LATERAL opening system.

Our first event will be in New York City at [Blueman Hardware](#) on Wednesday, March 28, 2012.

Our Sugatsune Chicago Showroom will be presenting a spring exhibition with a working kitchen, as well as a newly designed kitchen, sliding doors, and architectural hardware. It will be from April 16~26 and the contact information can be found on our website at www.sugatsune.com/chicago.

Please check our website, www.sugatsune.com, for an event showcase in your area. 800.562.5267 customerservice@sugatsune.com

Wagner Meters Offers 7-year Warranty on MMC/MMI Meters

Wagner Meters' commitment to their customers' success continues as Wagner Meters announced that effective January 1, 2012, all MMC and MMI Series handheld moisture meters will carry a standard 7-year warranty policy. Wagner Meters' complete confidence in their products now has you covered for a full **seven** years of warranty-backed use.

With IntelliSense™ Technology, the MMC and MMI Moisture Meter lines from Wagner Meters minimize interference from surface moisture for wood moisture measurements, ensuring that the reading you get is an accurate indication of moisture conditions in the wood. That's accuracy you can count on backed by one of the best warranties in the business.

Wagner Meters' moisture meter line presents fast, accurate and affordable moisture measurement with a moisture meter for every level of wood working and concrete craftsmanship. With advanced technology, accurate measurements and now a 7-year standard warranty on all MMC & MMI Series moisture meters, Wagner Meters are a solid investment as an essential tool for your workplace. To learn more, visit www.wagnermeters.com.
