

# Defend Homecare

May 22-23, 2013 | Capital Hilton Hotel

**Will the homecare sector stand up and ensure its survival by making its case to Congress, or will it allow CMS' misguided approach to undermine Medicare's provision of home medical equipment and products?**

**Show up, fight back, and defend homecare at the 2013 AAHomecare Washington Legislative Conference!**

Congress needs to hear from the homecare community about the disastrous effects Medicare's bidding program and CMS' audit practices will have on your business.

Join your peers for the homecare community's dedicated Capitol Hill lobby day on May 23. Visit House and Senate offices to speak with your Senators and Representatives face-to-face about the reality confronting homecare providers as they try to care for our country's most vulnerable citizens—the elderly and disabled.

AAHomecare's team of Washington experts will prepare you for those visits on the afternoon of May 22 with conference sessions that offer insight and guidance on key issues. Talking points, handouts, and other materials will be available. We'll even help schedule the visits through our appointments concierge.

***Don't miss the homecare sector's most important legislative and advocacy event. Fight for your future—register today!***
