- choir directors
- lay leaders
- seminarians

**Shift: A retreat about the music of the progressive Christian movement
July 27-30, 2011**

Pilgrim Center, Green Lake, Wisconsin

\$325 (four days, three nights, all meals and program)

What are some of the marks of progressive Christian music? How do we select and use music well? How do we overcome resistance to change, and defibrillate worship when it flatlines? And what are the heart-habits needed for all those connected to music ministry in a progressive worship context?

Widely known Christian music artists [Bryan Sirchio](#), [Andra Moran](#), [Christopher Grundy](#), and [Richard Bruxvoort Colligan](#) invite you to join us in this conversation at a progressive Christian music retreat in Green Lake, Wisconsin.

Reading sessions will explore great new songs for worship. Workshops will provide tools for writers, musicians, and all those connected to music ministry. There will be time to collaborate, and to establish relationships for future collaborations. We will be intentional about making time for individual reflection in the beautiful retreat setting at Pilgrim Center on Green Lake, Wisconsin. And, of course, there are trails, the shore, a labyrinth in the woods and many other places to encounter God in nature.

This retreat is \$325 which includes program, lodging on the Pilgrim Center site, and all meals. Meals are home cooked and include a full salad bar and vegetarian options at most meals. Accommodations include a choice of hotel style rooms (Oak Mound Lodge) or our beautiful new summer cabins (for a discounted price). The retreat programs will be hosted in our new Ley Chapel which provides a stunning setting for this conversation and shared music.
