

Continued...

Each director should have received their allotment of copies the week of January 16th. If you did not, please contact CSDA and they will look into the matter. If you find that you are in need of more copies, CSDA has a small supply and can make them available at \$1.50 per copy. If you would like a larger supply, CSDA can place an order with the printer and you can purchase the additional copies. The cost per copy is dependent on the total number ordered. As in prior years, we also contracted for the graphic designer to develop a couple of power point slides for local outreach events. Each director should receive the power point template by early February.

I would like to thank all the counties who contributed information and the various individuals who helped with the content and graphic layout. A heartfelt thank you to Keith Pepper – without his editing and polishing touch we would not have this wonderful publication.
