Chaired by Santa Barbara LCSA Director Carrie Topliffe, a CPA, the committee plans to make periodic informational presentations, and will be compiling on the CSDA website the key financial authorities that define what our practice should be. In addition, they are rounding up information about recent LCSA audit experiences, issues and findings (without naming names), and will make that available on a password protected CSDA site. Please contact Carrie if you've been through a CS356 financial audit in the past two years or if you're about to undergo one. The Audit Subcommittee will try to help you have the best experience and outcome possible – under the banner of MIFAs united!
