

Continued...

There are a variety of fiscal topics that will be addressed by resident experts in the field. Topics include: management/maximization of abatement process, an introduction to the CSDA Audit Subcommittee, a review of the LCSA Fiscal Policy Manual, and an overview and update of the SDU transition. Numerous other issues will be addressed through the standing issues and reports section of the agenda. The agenda is located both on CSDA Events and on the CSDA Fiscal Officers page at: http://www.csdaca.org/fiscal_officers.aspx. We encourage you to check back regularly to this page leading up to the Forum as we will be uploading materials on a regular basis.

To facilitate networking between fiscal officers, a lunch has been organized. For a reasonable price of \$6, attendees will receive a box lunch. We encourage all attendees to plan on staying for lunch to get to know some of their colleagues across the state. CSDA and DCSS have also scheduled a "time to talk" in the agenda. Open discussion and hot topics will be facilitated by DCSS staff during the latter half of the Forum. We encourage staff to come prepared with questions they have about any topic they desire. The goal is to learn from each other and surface issues or questions that need to be addressed in the future.

We look forward to seeing you in Rancho Cordova!
