American Doctor from Quito, Ecuador

Robert Wickman, D.O. first began his approach to health like most doctors, trying to heal with medicine as he was taught. But he soon realized that medicine does not heal, it simply masks symptoms. Dr. Wickman now has a truly unique and effective approach to healing. Knowing that our bodies have their own built-in mechanism for healing, Dr. Wickman discovered a method first invented by Dr. Royal Rife utilizing frequencies to kill cancer cells and pathogens. **“I developed alternative medical techniques which were able to reverse many degenerative diseases including Cancer, Arthritis, M.S., Lupus and Muscular Dystrophy without drugs. I learned how to practice using frequency medicine of specific diseases. My cancer cure rate was established at better than 80% cured with no remissions.”** This is one part of several methods that he uses to enhance the bodies own immune system. The great thing about Dr. Wickman’s protocols is that it can allow the immune system to do its job correctly even before you are labeled with a disease. That is to say, anyone can utilize these protocols to gain more optimal health and potentially ward off any disease that may show up in the near or distant future. Please see a more detailed explanation of Dr. Wickman’s treatments on his website. **www.WorldHealthAlternatives.com**

Dr. Wickman’s big heart and love of people has saved and improved the quality of life for many with cancer (many forms), diabetes, multiple sclerosis, arthritis, tumors, fungal infections, the list goes on and on. Dr. Wickman’s life mission continues to be healing men, women and children through alternative practices from his clinic in Ecuador.
