

## **Publishing Project Appeal**

There are two booklets by Steven Roboz (*Islamic Notes* and *Holy Grail*), which I would like to translate and publish within Buybook Publishing ([www.buybook.ba](http://www.buybook.ba)) anthroposophical library. In the course of last six years I translated 11 books, all of them being financed (print & layout only) by friends from abroad (S. Prokofieff, R. Seddon, Bernard Lievegoed Fund, Pedagogical Section at Goetheanum...) Buybook's management is not willing to support publication of the anthroposophical books due to bad economic situation in the country. So, all depend on my enthusiasm...

Last summer I met Philip Thatcher in Dornach, telling him about my efforts for renewal of Anthroposophy under this central South Slavic sky. I expressed wish for publication of above mentioned booklets. He advised me to get in touch with you asking for placement of an announcement in your Newsletter for possible collecting money from all those of good will for their publication. I need an amount (which is not high) only for cover of printing costs & layout.

If you would like to help, please get in touch with me!
