

Dress Code Policy

The Foxborough Regional Charter School Board of Trustees believes that part of an orderly learning environment is the appropriate appearance of the students attending school. Such appearance should reflect positively on the school and be consistent with standards of decency so that one's attire does not distract students or staff from creating and maintaining a proper learning environment. To that end the Board embraces a dress code that shall be enforced by staff. The administration will also develop expectations for physical education classes, for non-dress code days, and any other school related activities, as needed. The dress code shall consist of the following criteria:
