

Estimate / Quote Request Form: How We Produce Web Sites

In order for us to provide a quote or an estimate, we need to know the details of the web site you have in mind.

This form will guide you in providing the information we need and will serve as a Request for Proposal on which we will base our estimate.

Please type your answer after each question. Neatness, grammar and punctuation do *not* matter, but completeness definitely *does*! We'll go over it and provide you with a proposal and estimate. We realize that this will require some time and effort, but it's crucial to the estimating process. Thank you!

Existing Web Site

If you have an existing web site, what is the URL? If more than one please list them all...

In what ways is this site falling short? What would you like to change, add or subtract?

Purpose and Goals for Web Site

What are the purposes of this web site? Who is your target audience, and what will they be able to learn or do there?

Domain Names and Hosting

Do you have a domain name or names registered? What are they?

Like most web developers, we would always prefer to make hosting arrangements for sites we produce.

Will that work for you, or do you have an existing commitment to a particular web host? If so, why?
