

About the Club

The Figaro Owners Club was launched in March 2009 to provide comprehensive advice and information to both present and future owners of the Nissan Figaro.

Through our websites, publications and newsletters our membership enjoy both financial and ownership support benefits.

History of the Nissan Figaro

The Figaro was introduced at the **1989 Tokyo Motor Show** under the slogan "**Back to the Future**".

The car was based on the K10 Nissan Micra. Only four colours were available: **Topaz Mist, Emerald Green, Pale Aqua** and **Lapis Grey**. Each colour symbolised a season of the year. When the car was launched, Topaz Mist was the least popular colour. Only **2,000** were produced and hence they have become increasingly rare. **8,000** were originally available with an additional **12,000** added to production numbers to meet demand. **To find out more visit our Main Website.**

"The car is a means to meet up with people and after all a club is about it's members.

The Figaro Owners Club is not just a club but in my opinion it is like an **extended family of like minded people"**
