

# Your Future

## ...YOUR WAY!

Forging your own Path to Success!

There are MULTIPLE PATHWAYS  
to successful lives and careers  
right here in the region!

*OPPORTUNITIES are available for people with 2-year technical degrees, or students might consider a combination of community college classes that later transfer for 4-year degrees. Some companies offer on-the-job-training and apprenticeships that lead to sustainable jobs, and on-going education has become a necessity for SUCCESS in many fields.*

*When the ever-increasing costs of attending 4-year conventional colleges are compared to STATISTICS showing what's needed to SUCCEED in the JOBS that'll be most available in the next decade, it becomes a real challenge for families and students graduating from high school today to make post-secondary decisions that are both economically and educationally feasible. The Cohase Chamber invites you to a FREE EVENT to explore your OPTIONS! This forum will feature brief presentations and an interactive session between the audience and panelists, including representatives from: Plymouth State University, White Mountains Community College, Vermont Technical College, Financial Planning for College, Upper Valley Business & Education Partnership, Hypertherm, Rivendell Academy, and River Bend Career & Technical Center.*

*Starting at 5:30pm before this forum will be a workshop on College and Career Planning offered by NHHEAF about the financial planning involved with attending college.*

**When:** *Thur. October 18, 2012*

**Where:** Rivendell Academy • Orford, NH

**Time:** *6:30-7:30 PM*

**For:** Parents & Guardians, High School Students, Businesses, Guidance Professionals, Educators, and the Community

**Info:**
