

ARE YOU THE FIRST IN YOUR FAMILY?

If you're the first member of your family to go to college, you've got lots of company – about 41 percent of the IPFW student body is made up of First Generation students. Being First Generation can be exhilarating, confusing and challenging – all at the same time.

What many First Generation students don't realize is that a significant number of IPFW faculty and staff members made that complicated journey too. Join some of them for a frank discussion of the joys and complexities of being first.

WE WERE FIRST TOO!
