

# Children's Discovery Center

## Bubble Area

# Visiting the Bubble Area

I may visit the bubble area at the Discovery Center.

I know about bubbles.

Bubbles are made from air, water and a bit of soap. Bubbles are safe and fun.

The bubble area has a Bubble Blast table filled with water.

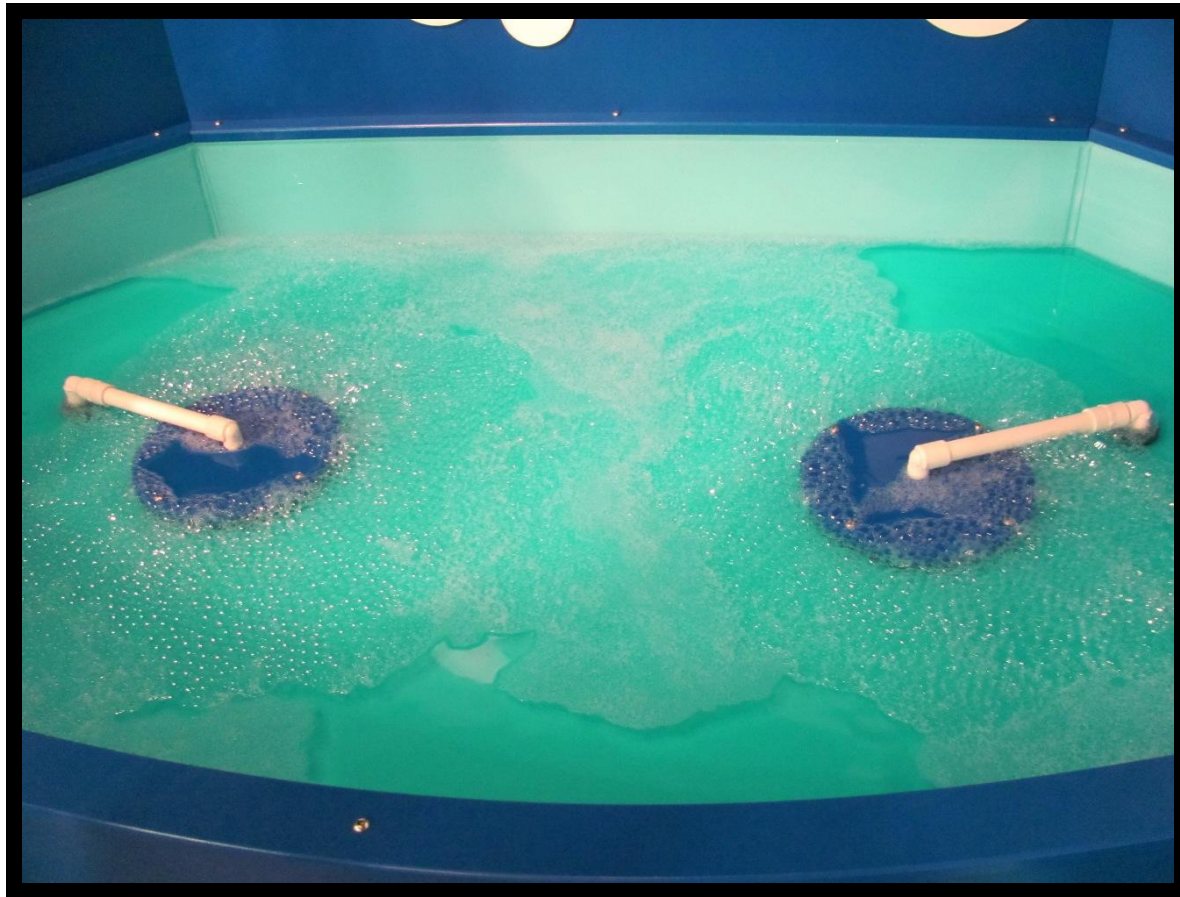

I can push a button to make some bubbles.

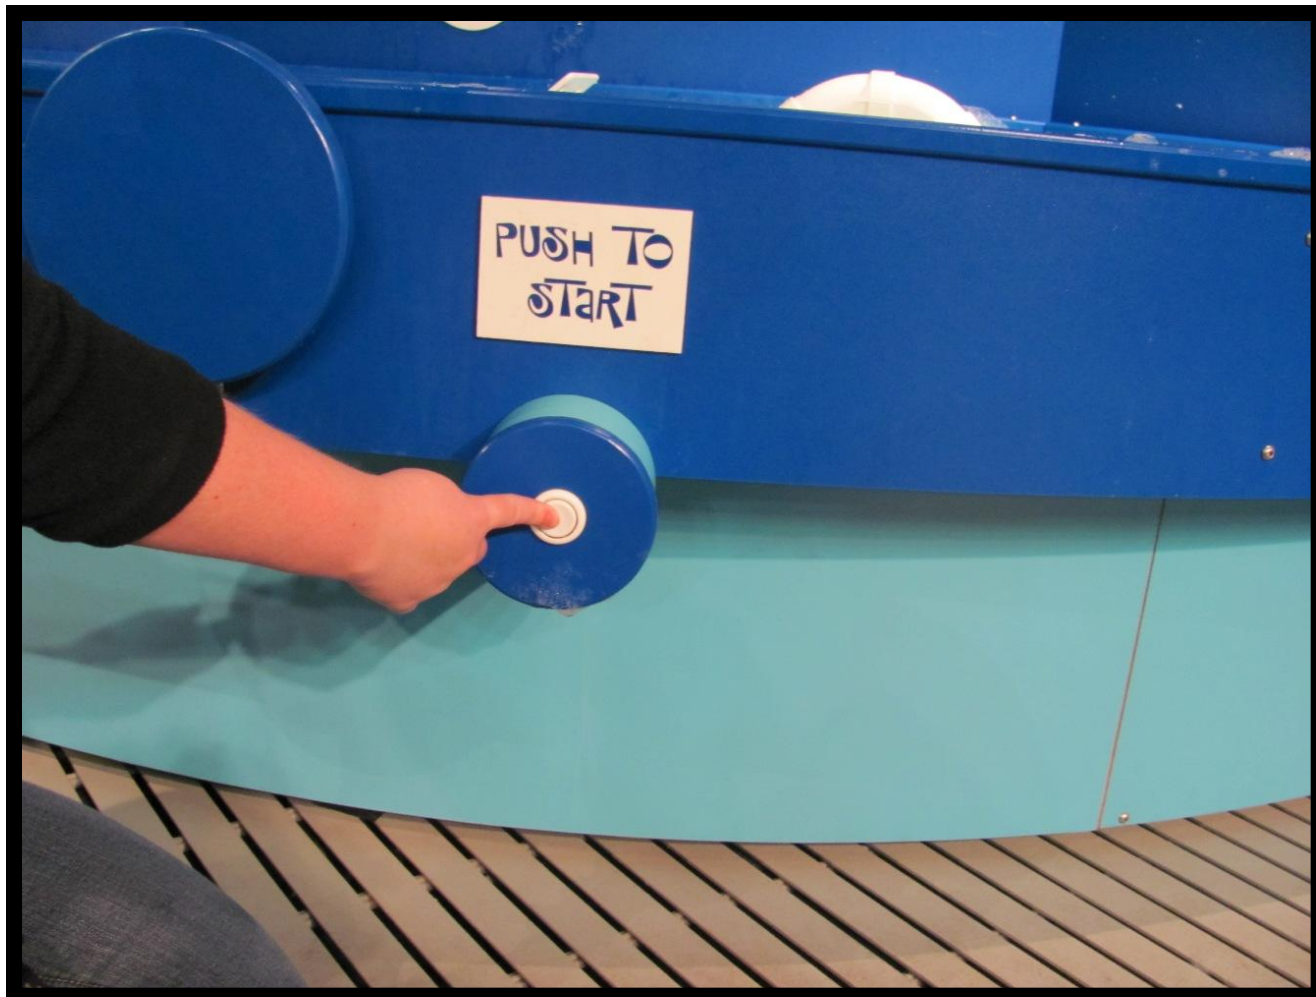

The small bubbles will float on the water.

I can visit the bubble blower table like these children.

I can push the button  
to get it started.

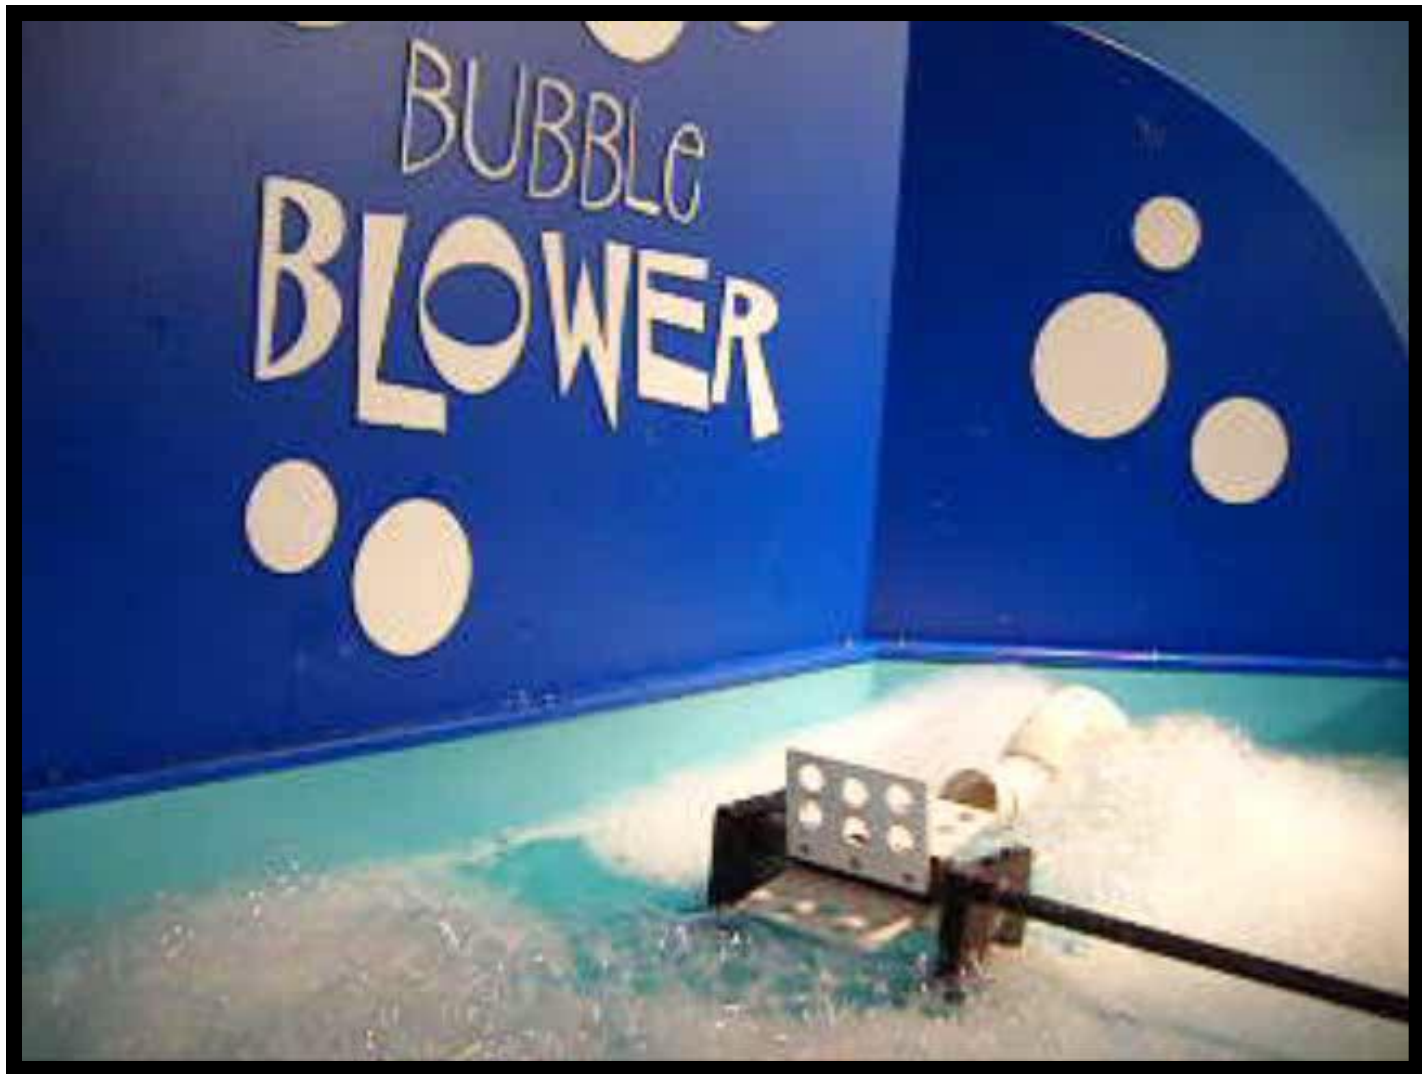

I can turn the wheel.

**A pipe will blow air to make bubbles!  
I will hear some noise. It is safe.**

The Bubble Wand table makes bubbles when I turn the wheel.

I can look up and see the sign that says Step in a Bubble.

I can stand on the yellow spot like this child and her mom. It is safe.

**I can pull the  
big ring.**

When I pull  
the big ring,  
a bubble may  
come up  
around me!

**The Bubble Area is safe and okay!**
