# **Master Class for Body Oriented Psychotherapists: The Somatic/Relational Interaction of Therapist and Client**

**Trainer: Michael C. Clemmens, PhD**

**Date: December 12, 2011**

**Venue: Skokie, IL**

**Fee: \$200.00**

**Gestalt therapy offers a physical/relational approach for exploring somatic experience based on patterns of contacting and mutual self-regulation. In this workshop we will explore existing somatic patterns of the client and therapist as a relational dance. By attending to this interaction, we can illuminate the client's unfinished business and become aware of our own contribution to habitual patterns and alternative options.**

**This master class workshop for body oriented therapists will include:**

- Brief didactic presentations focused upon core Gestalt body process concepts**
- Opportunities to work in learning laboratories practicing core skills**
- Demonstrations of work with volunteer participants**
- Consulting and supervising participants working with "clients" in a "fishbowl"**

**Fee reductions are available for full-time students and financially distressed professionals.**

**Package rates are available for those who register for both the master class and the "Presence" workshops.**

**To Register: E mail to [leswyman@theforesightgroup.org](mailto:leswyman@theforesightgroup.org) or call 216 382 5077**

**Registration deadline: November 26**

**See [www.theforesightgroup.org](http://www.theforesightgroup.org) for other events in the Chicago area.**
