

To my friends in the trucking Industry,

Please be advised that the Bay Area Chassis Pool is alive and well with over 3000 chassis available for your use Monday!

Some of you have asked me who will be the chassis provider for OOCL at OICT on Monday. The answer is BACP, SSAT, TRAC, DCLI and anyone else you choose. The BACP will continue to provide chassis for current steamship lines at OICT: NYK, Hapag and are being used for Maersk moves with approved truckers.

We will have plenty of chassis in OICT for OOCL moves for Monday. The process will be the same as in the past, you will hook up to a BACP chassis, load the box and then outgate. The only change is that the truckers will be charged for the usage at a rate of \$11.00 per day. Not per transaction. If you need a bare chassis please contact our logistics team in Long Beach at 562 590-5707. They will issue a chassis release number with source location. The start stop locations still apply in the trucker model. You can drop a BACP chassis or pick up at POA, OICT, UPRR, TTI, Conglobal and (Hapag business) at United Intermodal as you do today. No drop off or imbalance fees apply only \$11.00 per day.

Transition to the BACP is a very easy process for you as outlined below. We request you sign up as soon as possible. Please feel free to call me if you need assistance.

Jerry Quarle 510 566-1531

PROCESS

Thank you for your inquiry for BACP. The process for the truckers is to set up an account with Flexi-Van for the BACP pool. It is a very simple online process and can be approved in one or two days.

Please go to the Flexi-VAN home page and follow the instructions:

www.flexi-van.com

First - Under the FlexiDAY heading
Click on Customer Registration

Second - Then under the Intermodal Tab (rights side)
click on the Register Blue button (lower right).

Third – enter SCAC code and follow the four step registration process.

If you have your insurance and credit information ahead of time it will help expedite the process. They can be scanned and added. Please make sure they check the BACP pool and follow the prompts. When completed you will receive an approval email. If anyone needs assistance they can contact me directly and I will be glad to assist.
