## Near-Death Experience Panel of Speakers

A near-death experience or NDE is a profound spiritual event that may occur to a person who has died and either chose or was told to return, or was close to death or who is not near death but in a situation of physical or emotional crisis. An NDE may begin with an out-of-body experience--a very clear perception of being somehow separate from one's physical body, possibly even hovering nearby and watching events going on around the body. The effects of an NDE are often life-changing, and its details will typically be remembered clearly for decades.

Our October 22 NDE panel will describe their personal near-death experiences and share insights.

**Nadia McCaffrey**, [www.north-ca-iands.org/NDES.html](http://www.north-ca-iands.org/NDES.html), has had three NDEs and is featured in over 30 documentaries. **Yolaine Stout** is the founder of **ACISTE** (American Center for the Integration of Spiritually Transformative Experiences) and former president of **IANDS** (International Association for Near-Death Studies). **Ellie Schamber, PhD**, has spoken at IANDS and other organizations. The three near-death experiencers will share their stories, discuss research and answer questions. Yolaine will show clips from her upcoming documentary called *"Back to Life: Six Challenges Faced by Near-Death Experiencers."*

Topics of this presentation will include:

- ❖ Scientific evidence regarding NDEs
- ❖ Are people who 'die' and have NDEs really dead?
- ❖ Life-changing experiences and enhanced abilities (ESP, PK) after a NDE

The panel will be hosted by Bill Virga, M.A. Transpersonal Psychology

**Friday, October 22, 2010 7:30 PM (New Time)**

**Unity Palo Alto, Y.E.S. Hall,  
3391 Middlefield Road, Palo Alto**

Free to members    \$15 donation non-members    Students with ID \$5 donation
