August 8, 2011

Bureau of Land Management National Wild Horse and Burro Center Project: Reno Rendering Company

"JUSTIFICATION FOR OTHER THAN FULL AND OPEN COMPETITION" the statutory permitting other than full and open competition is contained in Subpart 6.3 of the Federal Acquisition Regulations.

(1) Identification of the agency and the contracting activity

The Bureau of Land Management National Wild horse and burro Center located at Palomino Valley is has been funded to properly dispose of all deceased and euthanized wild horses and burros under local, state and federal regulations. This service is funded through the Wild Horse and Burro Program budget WO 261.

(2) Nature - Description of the action

The Reno Rendering Company is located in Reno, Nevada and is the only rendering company located in Washoe County that is permitted to properly dispose of deceased animals. The National Wild Horse and Burro Center procures the services provided by Reno Rendering to properly dispose of deceased or cuthanized wild horses and burros for which are cared for at this facility.

(3) Description of supplies or services required to meet the agencies need, including the estimated value.

Render deceased and euthanized wild horses and burros from the National Wild Horse and Burro Center. \$30,000 annually.

(4) An identification of the statutory authority permitting other than full and open competition. (The appropriate portion of FAR 6.302, including any additional information that is required by the authority cited):

FAR 6.302-1 - Only one responsible source and no other supplies or services will satisfy agency requirements.

(5) A demonstration that the proposed contractor's unique qualification or the nature of the acquisition requires use of the authority cited:

Reno Rendering Company is the only company that provides this type of service. There are no other companies that provide rendering services within 250 mile radius.

(6) A description of the efforts made to ensure that the offers are solicited from as many potential sources as is practical, including whether a notice was or will be publicized as required by subpart 5.2 and, if not, which exception under 5.202 applies:

No other offers were received as this is the only provider of this type of service.

(7) A description of the market research conducted (see part 10) and the results or a statement of the reason market research was not conducted:

There is only one rendering company within a 250 radius of our area that provides rendering services. Federal, state and local regulations apply when disposing of deceased and outhanized animals. It is cost prohibitive to transport these animals to any further destination.

- (8) Any other factor supporting the use of other than full and open competition: The local Reno Rendering Company receives deceased animals from several surrounding counties in Nevada for it is the only business that provides these services.
- (9) A listing of the sources, if any that expressed, in writing, an interest in the acquisition:
- (10) A statement of the actions, if any, the agency may take to remove or overcome any barriers to competition before any subsequent acquisition for the supplies or services required: N/Λ

By my signature (physical or electronic) I certify that any information or data submitted as a part of this justification is complete and accurate.

John Neill Date: August 8, 2011
Signature of Requestor

John Neill Facility Manager, National Wild Horse and Burro Center Bureau of Land Management

By my signature (physical or electronic) I certify: 1) that the justification is accurate and complete to the best of my knowledge and belief; and 2) that the anticipated cost to the Covernment will be fair and reasonable.

NARRATIVE FOR STATEMENT OF WORK FOR RENO RENDERING

This agreement with Reno Rendering is required for the disposal of deceased animals from the facility at the National Wild Horse and Burro Center at Palomino Valley as needed. It is the only facility within the area that can dispose of deceased large animals that is cost effective and meets county, state and federal regulations for disposal. The only other present resource for disposal of deceased large animals is the county landfill located in Mustang, Nevada. We have researched the costs of transporting deceased large animals to the county landfill and it would exceed the costs of disposal at Reno Rendering. A permit from the county would be required for every trip to the landfill and it would cost considerably more in fuel, permits and time to transport deceased animals to the landfill versus Reno Rendering. The cost of disposal at Reno Rendering is \$125/ adult animal and \$30/foal. We estimate that we have 200 adult animals per year and approximately 100 foals per year = #30,000.00/ fiscal year for disposal charges. Due to the sensitive nature of the public to the wild horse and burro program, it is necessary to dispose of these large animals as quickly and discretely as possible and Reno Rendering fulfills these requirements.
