Richard Sgroi

FINANCIAL ALGEBRA SUMMER INSTITUTE

South Salem High School

1910 Church St. SE Salem, OR 97302

June 28-29, 2012

Richard Sgroi

Award Winning Teacher, Presenter, and Author

A great
option for a
3rd/4th year
math credit.

This 1.5 day workshop is designed for teachers who are teaching Financial Algebra or interested in implementing this new course.

- Comprehensive overview of the Financial Algebra course
- In depth look at each chapter, offering insight into the instructional model, chapter features, and algebraic modeling deployed
- How to use the graphing calculator and spreadsheets throughout the course
- Teaching the mathematics of Financial Algebra
- Using projects as an alternate means of assessment
- Using the Financial Algebra program supplemental resources
- Effective teaching tips and strategies

Meet your
school's
Professional
Development
Goals!
