FREE PCI compliant credit card terminal. Help clients who already process credit cards by bringing them up-to-date, upgraded terminals. The fact is, a majority of them:
- have older, non-PCI compliant terminals;
- pay terminal rental and/or insurance fees;
- need to purchase a new terminal if existing one malfunctions or is damaged;
- are not programmed for AVS (Address Verification), forcing a higher keyed rate (non-qualified).

FREE QuickBooks Billing Solutions. Allows your clients to email invoices to their customers and have them pay online with a credit or debit card (normally $14.95/month).

Direct integration of credit card processing into QuickBooks.
Allows clients to look up transactions, etc.
